Minions won last year's competition. But I am not afraid. If I can find a way through his Force field, I know I can beat him. I did this vehicle with my hands. My pen time is my punishment, to let my wife die. I will not fail her. This map and full of enemies. If he wants to survive, he said, he needs to keep moving. This is the final battleground of the tournament. If I win I will discover the truth. I'm going to face my wife's killer... The law doesn't stand my way. Where was the law when my wife went missing? To me, they are as guilty as murderers. Ending Axel won the contest and went to Calypso, demanding to know who had killed his wife. It turned out to be a sweet tooth that killed his wife. Axel then began blaming himself for his wife's death, with Sweet Two saying she didn't die easily and begging him when he killed her. Axel then shot his sweet tooth and killed it. The sweet tooth died, but so did his wife. Then he drove off and decided to stay in his vehicle on his own power. The clown is dead, but so is my wife, and I will never be free! Axel, revealed in the deleted ending, is a child in a wheelchair and Calypso kicking up a hill at TM:SB's Intro cutscenes. At the end his wish was to walk again. He is unlocked in level playground danger by shooting intermediate swings and collecting icons. Axel is generally known to have average statistics in all categories. In TM:SB, Axel is known for its moderate armor, somewhat lower acceleration and top speed. However, he has an absolutely outstanding turn. Driver Name: Axel Vehicle Name: Axel Armor: 6/10 Acceleration: 4/10 Top Speed: 4/10 Handling: 10/10 Special Weapon: Axel first hits an enemy, and he spins wildly, firing the same missile at the enemy. Deleted Ending: Name: Axel Vehicle: Axel Age: 38 Height: 6'3 Weight: 280 (Additional 60 Contributed by His Arm and Leg Enlargement) Processing: 5/10 Armor: 6/10 Special Weapon: 6/10 Crowd Controller: Unleash electric surges around, knock back and damage nearby opponents. Speed: 4/10 Voice actor: It's been more than a decade since Scott Macdonald Axel's father imprisoned him inside a two-wheeled machine. Finally, against his father, Axel lifted his arm out of the trap and later learned that he could not live without it. He met Dr. Jemu, who created cybernetic limbs for his arms and feet so he could once again steer the vehicle. But there was one thing Axel had to do in return. If he wins the Twisted Metal tournament, Axel must change his wish to Dr. Jemu. Vehicle: Axel Driver: Axel Axel is still sick of his wife's murder. Thinking her death was his fault, he decided to keep tied to the wheel, dragging his feet on hot asphalt, tearing, bleeding, causing him immense pain. One day he is pent up and hopes his wife's spirit will forgive him. Vehicle Type: Axel Speed: 2/5 (80/130 mph) Armor: 3/5 (170 pts.) Special Weapon: 3/5 Spike War Wheel (60-100 pts.) Crowd Control (20 points) Overall: 8/15 License Plate:~ Axel's new major special, Spike War Wheel, is similar to The Secret. Twisted metal: Black, combines two wheels into one with protruding spikes. The special hides the player on the spinning wheel of death, which can be controlled by the opponent for significant damage. Secondary specials are classic shockwaves that can push enemies caught in the blast radius. Axel also has unique characteristics that make you jump higher than any other vehicle in the game. This perk comes with a price, however: Axel plays a slow special with fairly low armor. Quiz General Axel's name is likely a reference to the fact that he is essentially part of the axis between two giant wheels. Axel did not suffer from muscle atrophy, despite being imprisoned on the machine for more than 20 years. In fact, he was built pretty well. In theory, this may be because it takes extreme force to control the vehicle. Axel's designs are similar in TM:B and TM:SB. Both do not have a platform to connect the wheels and attach the feet. He can be immortal because Axel is a machine. A number of evidence points to the fact that the tournament was the same age (38 years old) in several twisted metal games, even if it was held annually. And despite the fact that his body is exposed to ballistic projectiles fired by participants, the fact that he has medium armor. And mr. Grimm, another character who who was exposed to his body during the competition, has terrible armor. It can be claimed that a huge wheel is covering his side. Axel appeared in all but Twisted Metal (1995). Although, Axel was originally thought of as its conceptual art. Axel's appearance in TMIII suffers from many continuity errors. His ending at TM2 shows axel encountering his father, tearing his arm off the machine and walking away with only half of his arm. In TMIII, he is on the machine, but his arms seem completely ok with his ending, and his bio status says he climbs back into the machine. This doesn't make sense because he only has half his arm, so the other half is still in the machine. His arms need to be sewn together for use again, but there is no stitch mark. Even considering the ending of the previous game, he would not be able to use the machine again anyway because he had placed it near his father's house and walked it away. For this reason, we do not know how his arm appears to be completely damaged and how or why to use the machine again in TMIII. This may be due to changes in developers who want 989 Studios to include popular characters regardless of past games. In a damaged state, Axel loses his left arm. Axel is technically the first vehicle in the twisted metal series and the only vehicle in the game to have two specials. Like cheat cords, Axel can cause serious damage to vehicles simply by bumping them, somewhat similar to hammerheads, except axel doesn't go to the top or any Sound effects are heard. Axel was accompanied by a snake. However, this snake did not appear in subsequent appearances. Axel's license plate, REV 13:10, points to Revelation 13:10 in the Bible, and he who leads to captivity will be taken captive. A person who kills with a knife must be killed with a knife. Here is the patience and faith of the Saints. (King James version, Cambridge Ed.) In Twisted Metal 2, he says Axel Power! He is one of two TM2 characters who speak when activating a special (the other is grasshopper). Since his TMIII information screen can be found in the files of the game under the name AXEL, it may have been likely that Axel will have an information screen. Team[0], Axel's metallic appearance may be based on TMIII's desires. Axel is the only unlocked character other than minions where players don't have to destroy the unlocked control panel. It makes no sense that Kane appeared in Axel's ending. The sweet tooth was a competitor, and therefore he should have already killed the sweet tooth because Axel could have won. But because Calypso resurrected him, Axel could have figured out who killed his wife. Despite Axel's love for his wife, he did not use his desire to bring her back, instead using it to relieve his pain and attempt revenge. Axel, along with Charlie Kane's son, is the only unlocked character as a Blackfield Asylum patient. Axel can represent the needle assumption of how society views him, or Marcus's endless guilt at not stopping his evil self. Axel's ending was removed because of its offensive content. In the ending, Axel is in a wheelchair and asks Calypso to build a bridge. Calypso doesn't make him a pair of robotic legs, but Calypso has a remote control that controls them, making him sick by changing the rake. This decision can cause Axel to transition from the default character to an unlockable state because it is the only default character without termination. Axel's driver can still be seen for a moment in the introduction of the game. The character Axel is not visible, but his vehicle is available. Quote father! Please! Release me! No, father! I learned my lesson! Let me show you what I've learned! I am a free person! And you are not my father anymore! AAAAAHHH! Let's get me out of heeya!! I won the competition. I went to Calypso and asked for an award. I wanted to know who killed my wife... And I wanted revenge. He was! That monster in an ice cream truck! He was always around the neighborhood! I wasn't more careful. I should have felt something was wrong. It was my fault! Maybe I'm the one to blame for my wife's death! But then, he told me. The clown is dead. But so is my wife. I will never be free. Dr. Jemu? I do. He was the one who gave me these. I collapsed my arm in this trap, and he gave me something new. He allowed me to drive again. I am That... My winning wish. I. I can't. No! There was so much destruction! It was a mistake for me to compete. And it would be a mistake to allow the twisted metal to continue! (Jemu: What?!) I want to get rid of violence in the world! I am sorry. But I' m... Wish... For peace... AAAGGGHHH! No! Look out of this one! Community content is available in CC-BY-SA unless otherwise stated.
